

## Cranford Memorial Hall

During the Covid pandemic, the general use of the hall was hugely reduced, but thanks to the grants, we were able to use the time to good effect and completed some valuable modernisations to improve access.

This last year has seen an improvement in bookings, as people begin to return to old habits, and with a substantial new booking by a holiday club, the turnover produced a small profit.

We provide functions for the village, but it is difficult to raise sufficient money to cover ongoing costs of maintenance, and our focus is on fundraising, and possibly new grants.

However the access to external funding is naturally limited in these times of general shortage of money.

We are operating in profit, just; will keep doing our best to improve usage of the hall; and hope for a continued increase in happy customers!
